PROFILE

01
Full-Stack Software Engineer, Product Manager, and AI Developer with 3 years of experience building scalable full-stack web applications, SaaS platforms, and AI-integrated systems. Proficient in React, Next.js, TypeScript, Node.js, Python, Go, Django, FastAPI, and NestJS. Experienced in designing and developing modern web applications, REST APIs, database architectures, and cloud deployments. Skilled with AI tooling including Claude, OpenAI Codex, MCP server configuration, LLM API integration, and AI agent development. Proven track record of leading remote engineering teams, delivering high-quality software, and improving sprint velocity by 30%. Open to remote and international opportunities.

TECHNICAL SKILLS

02 FRONTEND React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux	BACKEND Node.js, NestJS, Python, FastAPI, Django, Go, REST APIs, GraphQL, Microservices
LANGUAGES TypeScript, JavaScript, Python, C++, C#, Java	DATABASES PostgreSQL, MongoDB, Query Optimisation, Database Design, Data Modelling
AI & LLM TOOLS Claude, OpenAI Codex, MCP Servers, LLM API Integration, AI Agent Config, Prompt Engineering, RAG, LangChain	MANAGEMENT Agile, Scrum, Sprint Planning, Technical Recruiting, Roadmap Definition, Team Leadership
DEVOPS CI/CD, Docker, GitHub Actions, Automated Testing, Cloud Deployment, Linux	

PROFESSIONAL EXPERIENCE

Nourishlab <i>TeamLead</i>	Aug 2025 — Present
--------------------------------------	--------------------

- ◆ Led the end-to-end development of an AI-powered nutrition platform, designing and implementing scalable full-stack features from responsive frontend interfaces to secure backend APIs and database architecture.
- ◆ Integrated AI-driven meal recommendations, personalized nutrition insights, and user analytics while optimizing application performance, authentication, and overall user experience.
- ◆ Collaborated with cross-functional team members using Agile methodologies, managing feature planning, code reviews, testing, deployment, and ongoing maintenance to deliver a reliable SaaS platform.

KIWI DIGITAL <i>Lead Developer</i>	Jan 2025 — Present
--	--------------------

- ◆ Developed custom static and dynamic websites tailored to client requirements using modern full-stack technologies.
- ◆ Collaborated directly with clients to gather requirements, implement requested features, and deliver responsive, user-friendly web solutions.
- ◆ Deployed, managed, and maintained client websites, ensuring reliability, security, and timely updates after launch.
- ◆ Built and integrated frontend interfaces with backend services, databases, and APIs to create scalable and functional web Applications

Roha Travels

Sep 2024 — Jun 2025

Intern

- ◆ Built a responsive travel agency website for Roha Tour & Travel using React, Next.js, and Tailwind CSS, showcasing tour packages, destinations, and travel services.
- ◆ Developed reusable components and structured booking workflows for flight tickets, hotel reservations, tour packages, and medical travel services.
- ◆ Optimized website performance, SEO, and mobile responsiveness, improving the overall user experience and digital presence of the agency.

Perago Information Systems

Jan 2024 — Feb 2025

Frontend Developer

- ◆ Built reusable React component libraries and REST/GraphQL API integrations for government-facing E-Service platforms serving thousands of daily transactions.
- ◆ Implemented AWS cloud deployment pipelines automating build, test, and release stages, reducing manual deployment effort by 40%.

CreativeCodes

Jan 2024 — Jun 2025

Software Engineer

- ◆ Built Node.js and PostgreSQL backend systems for e-commerce and real-time sports betting platforms handling concurrent sessions and live odds feeds.
- ◆ Optimised critical database queries and introduced indexing strategies, reducing average API response time from 850ms to under 200ms.

04 EDUCATION

Bachelor of Science in Environmental Engineering

Addis Ababa Science and Technology University,
Ethiopia

2023 — Expected 2028

Bachelor of Science in Software Engineering

HiLCo E School of Computer Science and Technology
Ethiopia

2024 — Expected 2028
